Dear Parishioners,

It is with faith and prayers for those gifted in the capacities of leadership, science, and medicine, that we will successfully emerge from this time of fear, uncertainty and anxiety. In addition, together in faith and prayer for each other and the world we will find hope, courage and a greater capacity to be there for others.

Beyond that message there are two additional purposes of this letter.

The first is that for those with internet capacity we are posting, through our website and social media, such as Facebook, messages from our staff and links to helpful resources. If you know of someone without internet capability, please let us know so that we can use the mail to provide helpful messages and content.

The second is that the Finance Committee asks for your continued financial support. The expense associated with holding Sunday Mass is the smallest part of our overall budget. Other expenses such as retaining programs, meeting payroll for our loyal employees, assisting those in need and meeting our everyday expenses rest on your support. Acknowledging that this is a difficult time, they ask that those who can give either by mail or credit card to please do so. If you would like to contribute by credit card and are not doing so already, please complete and return the attached form to the parish office. Credit card giving is simple and secure.

My continued prayers for everyone. If you have questions or needs, please email or call the office. Your parish is here for you as we know that you are here for your parish.

Sincerely,

Father Kevin Corcoran
